

Flasher Analysis

- Document flasher runs for easy access
 - This will be more challenging than it has been in the past, as we no longer store data in the old database
- Pick task for the calibration group from the vacant task list
- PMT Linearity Testing: Compare sum of charges observed when 6 horizontal LEDs flash individually to total charge observed when the 6 horizontal LEDs flash simultaneously
- Do these comparisons for all strings in the detector

Ratio Of Sum of 6 Individual LEDs vs All 6 Flashing on String 84 with Ice Properties

Madeleine Hanley
