

Session Program

13–15 May 2013

IPA 2013

Accelerator-Based Neutrino Physics III

Union South
1308 West Dayton Street, Madison, WI 53706

Tuesday 14 May

16:00

Accelerator-Based Neutrino Physics III: Zelimir Djurcic / Teppei Katori, co-convenors

Session | Location: Varsity I - 2nd Level

16:00–16:25

MiniBooNE: current evidence for neutrino oscillations and a future test

Speaker

Rex Tayloe

16:25–16:45

A Future Coherent Elastic Neutrino-Nucleus Scattering Experiment at Fermilab

Speaker

Dr Robert Cooper

16:45–17:10

Status of MicroBooNE

Speaker

Christina Ignarra

17:10–17:25

Recent Results from the Fermilab MIPP Experiment and Future Nitrogen Run

Speaker

Prof. Nickolas Solomey

17:30
