

Workshop on a wide field-of-view Southern Hemisphere TeV gamma ray observatory

Thursday 10 November 2016

Future Detectors - Salón Estrellas (14:00-15:30)

-Conveners: Michael DuVernois

time	[id] title	presenter
14:00	[9] The Cherenkov Telescope Array: Status and Plans	WILLIAMS, David
14:30	[15] ALTO concept and design choices	Dr PUNCH, Michael
15:00	[13] Simulation study for the proposed wide field-of-view gamma-ray detector array ALTO	THOUDAM, Satyendra

Future Detectors - Salón Estrellas (16:00-17:30)

-Conveners: Tom Weisgarber

time	[id] title	presenter
16:00	[10] LATTES: a next generation gamma-ray detector concept	Dr CONCEIÇÃO, Ruben
16:30	[5] ALPACA Project : 100 TeV Gamma-ray Observation in the Southern Sky	Dr KAWATA, Kazumasa
17:00	[0] A low-cost wide field-of-view Cherenkov Telescope	Prof. BRETZ, Thomas
