

Workshop on a wide field-of-view Southern Hemisphere TeV gamma ray observatory

Friday 11 November 2016

Hardware - Salón Estrellas (11:00-12:30)

-Conveners: Andrew Smith

time	[id] title	presenter
11:00	[4] Antares Modules In a Gamma-ray Observatory (AMIGO)	Dr SCHÜSSLER, Fabian
11:20	[1] A muon detector using silicon based photo sensors (SiPMs)	Prof. BRETZ, Thomas
11:40	[23] Southern observatory costing and logistics	DUVERNOIS, Michael
12:00	[25] Modern Timing Concepts for Astroparticle Physics	Dr WISCHNEWSKI, Ralf
12:15	[29] Using Non-Imaging Concentrators to Reduce the Cost of WCDs	BENZVI, Segev
